

Your Finished Product

Your finished product is delivered in DVD format in a professional case with a custom-designed cover created from your invitation or program. Your DVD is divided into chapters for ease of use.

Ron's state-of-the-art Grizzly Pro system allows him to get your DVD delivered to you in a fraction of the time it takes when the video is produced with traditional means.

Music can be added to the introduction and other parts where appropriate. You can also add a special filmed message to your guests or loved ones who were unable to celebrate with you.
